**Modi launches 'Made in India' gold coins, two other schemes**

In a bid to put some 20,000 tonnes of idle gold to productive use and cut imports worth $35-$45 billion annually, India on November 5 launched three schemes related to the metal, including domestically minted coins with the images of Ashok Chakra and Mahatma Gandhi.

The schemes launched by Prime Minister Narendra Modi also included one to convert jewellery and other similar yellow metal assets with the people into interest-bearing deposits, as also sovereign bonds with an eight-year tenure but with an exit option after five years.

**India's Exim Bank lends $87 mn for Zimbabwe power project**

The Export-Import Bank of India, a premier finance institution that works towards integration of foreign trade and investment with the country's overall economic growth, has extended an $87 million line of credit for the re-powering of an electricity station in Zimbabwe's second largest city of Bulawayo.

Noah Gwariro, managing director of the Zimbabwe Power Company, said the contract for the re-powering of the Bulawayo power station has been awarded to Indian company Jaguar.

The completion of the project will help improve power supply to Zimbabwe's capital Harare, around 440 km from Bulawayo.

**Twitter launches Make in India emoji**

The Indian Government on Nov 4 became the first non-US based brand to have a Twitter emoji --- #MakeInIndia --- which aims to promote the country as a global manufacturing hub.

"As a key highlight of this Government campaign, an emoji of a black lion on an orange background, a version of the national programme's official logo, will now appear next to the #MakeInIndia
"hashtag in any Tweet worldwide," Twitter said in a release following Commerce and Industry Minister Nirmala Sitharaman’s visit to its headquarters in San Francisco.

"The #MakeInIndia emoji symbolises success of the brand campaign on Twitter with nearly 500 million impressions this year to promote India as a great place for foreign direct investment to transform the country into a global manufacturing hub," it added.

France to give €2 billion for smart cities

France has become the first country to make a financial commitment towards the National Democratic Alliance Government’s ambitious ‘smart city’ project. Around €2 billion will be provided to convert Chandigarh, Nagpur and Puducherry into smart cities, ambassador of France in India Francois Richier announced on Wednesday. While other countries, including the US, Japan, Spain, Germany, Netherlands and Singapore have entered into partnerships and have chosen their preferred cities to invest in, no figure was mentioned earlier, experts working in the area pointed out.

**President Pranab Mukherjee to Inaugurate Trade Fair in Delhi on November 14**

President Pranab Mukherjee will inaugurate this year's India International Trade Fair (IITF) in Delhi on November 14, which is expected to see the participation of over 7,000 Indian and foreign companies.

Goa and Jharkhand are the partner states this year while the focus state is Madhya Pradesh.

Afghanistan is the partner country while Bangladesh is the focus country for the event.

Commerce Minister Nirmala Sitharaman will preside over the inaugural function of the fair, which has 'Make in India' as its theme, said IITF organisers - India Trade Promotion Organisation (ITPO).

"The fair's theme is 'Make in India', which will publicise the infrastructure of every state and the capabilities of Indian exhibitors to attract investments in India through this event," ITPO said in a statement in Delhi.

"Extending India's global appeal for investment in diverse sectors, Smart Cities, Digital India, model villages, Clean Ganga Mission and Jan Dhan Yojana will be depicted in the central and state pavilions," it added.

Besides domestic firms, companies from Afghanistan, China, Germany, Hong Kong, Indonesia, Iran, Pakistan, Russia, South Africa, South Korea and the United Arab Emirates would showcase their products at the fair.

Substantive Reforms Will Promote 'Make in India': US Trade Body

An American trade body focused on India has said that only "substantive reforms" will advance the NDA Government's efforts to promote 'Make in India' and attract high value-added foreign direct investment.

"Only substantive reforms will advance the Modi Government's efforts to promote 'Make in India', attract high value-added foreign direct investment, and move up the economic value chain," Alliance for Fair Trade with India (AFTI) said in a statement.

"In a highly competitive global economy, the lack of substantive reforms and movement toward world-class regulatory and IP standards only serves to hinder India's aspirations to rise as a globally-competitive country," said AFTI, which for the past few years has been pushing for reforms in India.

Services sector growth hits 8-month high in Oct

India's services sector activity touched an eight-month high in October driven by a significant rise in new business orders even as growth in manufacturing output eased, a Nikkei survey said.

The Nikkei Business Activity index climbed to 53.2 in October, from 51.3 in September, as fresh orders expanded at a solid pace and were most pronounced since February. “Services companies saw a faster rise in new businesses than their manufacturing counterparts,” said Pollyanna De Lima, economist at Markit, which compiled the survey.

Acer turns serious about smartphones, starts manufacturing in India

Taiwanese electronics giant Acer on November 5 launched two smartphones -- Liquid 630s and Liquid 530 -- at Rs.10,999 and Rs.6,999 respectively in an exclusive partnership with Flipkart.

The company reiterated it was serious about its smartphones portfolio.

"Not only are we serious about our category but we want to evolve this as well. We were into the pilot mode before to understand market dynamics and consumer psyche and as soon as we were ready we launched," S. Rajandran, chief marketing officer, Acer India told IANS adding that the company would also start its phone manufacturing at its Pondicherry unit in India.

American India Foundation raises
$200,000 for India initiative

American India Foundation (AIF) has raised $200,000 for its Maternal and Newborn Survival Initiative (MANSI), designed to reduce maternal and child mortality in rural, impoverished areas of India.

Founded in 2001 at the initiative of then US President Bill Clinton, the community organisation engaged in catalysing social and economic change in India, raised the amount at its annual Washington DC gala Friday.

The gala featured Mamta Mahato, a 26-year old health worker from Jharkhand, India. She shared that skills training from AIF’s MANSI programme has enabled her to safely deliver over 90 healthy newborns in her village.
Over 250 influential guests from US and Indian Governments, corporate and entrepreneur leadership, media, and philanthropy of the greater Washington DC area attended the power-packed evening at the historic Congressional Country Club in Bethesda, Maryland.

New FDI norms: Apple might set up fully-owned stores in India

The Government has not spelt out the exact rule change linked to high-technology segments under single-brand retail, and the new norms are being interpreted as waiving of the mandatory 30 per cent sourcing from India. If that happens, iPhone and iPad maker, Apple Inc, may look at India soon for setting up fully-owned stores in India, and perhaps also explore manufacturing its products in the country. At present, Apple products are sold through franchise stores in India. Besides Apple, the revised rules may help others such as Sony and Huawei. During his recent US visit, Prime Minister Narendra Modi had invited Apple CEO Tim Cook to set up a manufacturing base in India.

British insurers to invest 238 mn pounds in Indian JVs

British Prime Minister David Cameron welcomed India’s decision to increase FDI limits in the insurance sector to 49 percent and said it would result in British insurers investing around approximately 238 million pounds in their Indian joint ventures.

Indian Prime Minister Narendra Modi and his British counterpart Cameron met here to discuss a host of issues.

Noting that the Indian Government recently permitted foreign direct investment (FDI) upto 49 percent in the insurance sector, Cameron noted that several British insurers have announced a number of agreements to increase their investments in their joint ventures in India.

“These agreements would amount to approximately 238 million pounds of Foreign Direct Investment in the first instance subject to regulatory approvals,” a joint statement issued at the end of the meeting said.

**India to overtake China as Asia’s biggest producer of workers**

Asia’s work force is set to shrink over coming decades with India overtaking economic rival China as the region’s biggest source of workers.

By 2050, the Asia Pacific region will have nearly 50 per cent of the world’s total work force, down from 62 per cent today, according to Bloomberg analysis of United Nations data. The shifting patterns will see India account for 18.8 per cent of the global work force compared with 17.8 per cent today, topping China from the top spot. China will account for 13 per cent, down from 20.9 per cent now. The projections, which use working age population as a proxy for labour force, also show a push from Africa, with Nigeria jumping to third spot from ninth and Ethiopia and Congo making it to the top 10.

Modi govt clears clutch of moves to revive projects, boost revenue

The Government announced a clutch of measures – including a stake sale on Coal India, revival of stalled projects, and interest relief for exporters, – aimed largely at propping up sagging revenues in the face of a global demand slump.

At a time when markets remain volatile due to global cues, the Cabinet cleared a 10% disinvestment in the Coal India Ltd (CIL), besides approving an initial public offer (IPO) for Cochin Shipyard, power minister Piyush Goyal said in a post-Cabinet meeting briefing.

The move came at a time when the Government is finding it hard to raise even half of the budgeted Rs 69,000 crore from disinvestment and strategic sales.

Govt announces 3% interest subsidy to boost exports

Concerned over continuous decline in exports, Government announced 3 per cent interest subsidy scheme for exporters which will have a financial implication of about Rs 2,700 crore (US$ 406.93 million).

The decision to help boost overseas shipments was taken at a meeting of Cabinet Committee on Economic Affairs headed by Prime Minister Narendra Modi.

The CCEA has given its approval for “Interest Equalisation Scheme (earlier called Interest Subvention Scheme) on Pre and Post Shipment Rupee Export Credit with effect from 1st April, 2015 for five years”, an official statement said.

The rate of interest equalisation would be 3 per cent, it said, adding that it will be evaluated after three years.

Financial implication of the proposed scheme is estimated to be in the range of Rs 2,500 crore (US$ 376.79 million) to Rs 2,700 crore (US$ 406.93 million) per year, it said.
